ABUS Gobra 12/140 (2322 ABUS 8008) is a high-quality cable lock that is designed to protect your motorcycle from theft. It is made of high-strength steel and is resistant to cutting and bending. The lock is easy to use and can be attached to a variety of objects, including the handlebars, seat, and frame. It is also resistant to weather and corrosion. The lock is available in two sizes, 12mm and 14mm, to fit different types of motorcycles. The 12mm size is suitable for most motorcycles, while the 14mm size is suitable for larger motorcycles. The lock is also available in two colors, black and silver. The black color is more discreet, while the silver color is more visible. The lock is a great investment for anyone who wants to protect their motorcycle from theft. It is easy to use and can be attached to a variety of objects.
