2872123183331A BIKS Centurio 860/110
cable is comprised of two concentric cables. The outer cable is made of high quality steel, which encase the inner steel cable and thus provide double security. This makes it much more difficult to cut the cable than with a simple cable lock. We recommend using the Steel-O-Flex™ Centurio 860 primarily for securing good bikes and as protection in areas with a medium risk of theft.
